verse 1

```
F#                                Bbm
how can they be tired of england?
F#                                Bbm
they ll never know the england that we know
      B                                D
never know where the ones with the dreams go, no
      B                                D                                E
never notice the skies with their eyes down low
```

verse 2

```
we ll never be tired of england
united in rain in the cities
to channel the pain and the pitys woe
to carry them back to the place below
```

bridge

```
      A
with the blues, the greys, the green, the brown
      D
to lonely nights up town
      A
don t let them bring you down
      D
lonely nights up town
      A                                C#
don t let them bring us down, no
```

verse 3

```
how can they be tired of london?
the sense in the air on a warm day
```

generation of hope that sees better days
but moving slong in the same old ways

verse 4

we ll never be tired of london
from clerkenwell into the city
the state of the roofs is a pity though
generations all cramped with their kids in tow
