

**Questioned Apocalypes**  
**Dispatch**

Notes: So I like to have the lyrics in front of me while I play so I decided to add the  
to this so it would be easier since the lyrics are semi-complicated. The strum  
pattern  
bad, so listen to it to get it... This is a great song by an even better band!  
Enjoy!

Intro:

**E Am Dm G C Am E** x2

**E Am Dm**  
I went over to the drug store to check my head against  
**G C Am E**  
The bright light but she caught me from behind  
**E Am Dm G**  
And though I did not know and though I did not care  
**C Am E**  
I could not tell that I was blind to think my world a bubble  
**Am Dm G**  
And to think that my brother s was too  
**C**  
And that she had come  
**Am E**  
To shatter all that I knew  
**E Am Dm G**  
So I-I-I-I straightened up my back and I cry  
**C Am E**  
Do what you must do

[Chorus]:

**E Am Dm G C Am E**  
Take me now before I change my mind  
**E Am Dm G C Am E**  
Take me now before I lose my mind

**E Am**  
So I headed to the deep, deep forest  
**Dm G**  
To catch my earnings  
**C Am E**  
But my earnings were all up  
**E Am Dm G**  
And my-ay-ay-ay brother looked up at the sky and he go  
**C Am E**  
Why have you poisoned my brother s cup  
**E Am**  
And I cry don t you worry boy

**Dm**  **G**  
Cause the woman who came for me  
**C**                  **Am**                                  **E**  
Will surely show you your bliss  
          **E**          **Am**  **Dm**  **G**  
For she-e-e-e holds the answers to all your fears  
**C**                                  **Am**                  **E**  
she questions the apocalypse

[Chorus]:

**E**      **Am**  **Dm**  **G**                  **C**          **Am**  **E**  
Take me now before I change my mind  
**E**      **Am**  **Dm**  **G**                  **C**      **Am**  **E**  
Take me now before I lose my mind
