

## Steeple Dispatch

This song is in a really weird key and it s fun to play. I tried to match the chords up with the words as best I could, but you ll have to listen to it to get the timing down exactly. I m not gonna tab out the intro because I don t know it. Make up your own.

Verse 1:

	<b>F#</b>	<b>G</b>	<b>F#</b>	<b>G</b>
I	heard	a	story	about
who	was	swept	off	the
deck				
<b>F#</b>	<b>G</b>	<b>F#</b>	<b>G</b>	<b>F#</b>
The	sweeping	tide	swept	the
sea	over	his	neck	
(Repeat chord sequence)				
But	it	did	not	end
there,	the	boy	began	to
swim				
And	dared	to	the	sea
that	dared	to	invade	him

Chorus:

<b>Bm</b>	<b>F#</b>	<b>G</b>	<b>D</b>
did	you	ever	want
to	know	me	
did	you	ever	feel
like	you	could	
<b>**Em</b>			
it	s	a	silent
steeple			
<b>G</b>	<b>Em</b>		
that	carries	us	down
	<b>F#</b>		
it	s	a	silent
steeple			

(Back to verse riff)

Verse 2:

But the sea wouldn t so much as reply  
So the boy swore to the ships that were fated to die  
Red sky at night, sailors delight  
Red sky in the morning, sailors take warning

Chorus

**F#**  
sail on, take it back, sail on, take it back, sail on, take it back

Bridge: (Same chords as chorus)

We were going with the wind in our hair  
And we didn t want to look back cause if we did  
We would not care  
And if we all were to die now  
Well it wouldn t be that bad

Cause that boy in the waves said  
he d give us everything  
Everything he had  
To go on and trace that scar,  
like we did ten years before

(Solo over verse, chorus chords)

chorus

**F#**

sail on, take it back, sail on, take it back, sail on, take it back  
sail on, take it back, sail on, take it back, sail on, take it back, sail on....

(Verse riff out)

That F# to G sequence played on the verses is also the main riff of the song and it starts up after that little intro that I haven t learned yet. You can jam out on it at the end if you want. It s really fun to solo over. \*\*I m tabbing this song out from memory and I think that part is right, but I m not entirely sure. Try it with the recording and see if that works.
