

**What You Know About Me**  
**District 3**

This isn't the way Greg plays it, but i thought it sounded similar :)

Capo 2nd

Its **Am F C G** through out the whole song.

(Verse 1)

When you re looking at me tell me what do you see  
Bet you re thinking my life is so cool and complete  
Just another stranger that is passing you by  
You probably think that you figured me out every time

(Pre Chorus)

They don't know...  
Where I came from  
They don't know....  
And how I stayed strong

(Chorus)

What you know about me  
And all the shit I went through just to get myself here  
What you know about me  
And all the nights I stayed up trying to fight back the tears  
What you know about me cause what you see is just an image you perceive  
But you know don't know about me ( ey)  
What you know about, what you know about, what you know about me babe....

(Verse 2)

Everybody's got a story we just don't know about them  
And everyone thinks that the world revolves around them  
We re all strangers passing each other by  
Moving through things that we can't get out inside

(Pre Chorus)

(Chorus)

(Interlude)

Don't tell me who to be words don't me shit to me  
I ma get it through to you yeah when I m there don't be calling me  
Ain't nobody gonna break us down cause we re just getting started started  
So if you came to party let me hear you say...

(Chorus x2)
