[Verse]
```
                C#
Ain t no talkin to this man
                C#
Ain t no pretty other side
                F#
Ain t no way to understand the stupid words of pride
                 G#sus   G#                    F#                      F#/A
It would take an acrobat, and I already tried all that
                C#   F#   C#
I m gonna let him fly
C#
Things can move at such a pace

The second hand just waved goodbye
                    F#
You know the light has left his face

But you can t recall just where or why
                  G#sus       G#
So there was really nothing to it
            F#                      G#
I just went and cut right through it
                    C#    F#   C#
I said I m gonna let him fly yeah
          F#                G#
There s no mercy in a live wire
    Bbm
No rest at all in freedom
F#                     Ebm             Bbm
The choices we are given it s no choice at all
    F#                G#
The proof is in the fire
    C#                        Bbm         Fm
You touch before it moves away
Ebm                                          G#      G#sus G#
But you must always know how long to stay and when to go
                        C#
```

```
And there ain t no talkin to this man

He s been tryin to tell me so
                    F#                                    Bbm
It took awhile to understand the beauty of just letting go
                          F#                Bbm           G#
Cause it would take an acrobat, I already tried all that

[Outro]
G#                      C# F# C#
I m gonna let him fly
F#                      C#
I m gonna let him fly  fly
F#                      C#
I m gonna let him fly
