

## Holiday

Dizzee Rascal

Capo 4: **G Em C D**

**G** **Em**  
Get your passport and your bikini  
**C** **D**  
You need a holiday, come see me  
**G** **Em**  
I know you re tired of the same old scenery  
**C** **D**  
And I could change all that so easily  
Go wild, do your thing, yo take a chance  
I ll take you to the South of France  
Like Cannes  
If anyone can I can  
We can go shopping in Milan  
I just hope you understand  
I hope you see it clear  
It really don t matter how far or near  
Cus there s no distance that can stop my persistence  
There s just a few days in the year  
Plus I ve got car  
So let s ride that  
We ain t gotta fly, we can just drive that  
We can have a rave, we can hire that ?  
Won t tell nobody let them find out

If you ain t doing nothing let s fly away  
Drive away, get away  
We can go to the club or hide away  
We can do what you want to, baby  
If you ain t doing nothing let s fly away  
Drive away, take a holiday  
We can go to the club or hide away  
We can do what you want to, baby
