

Holiday

Dizze Rascal

Capo 4: **G Em C D**

G **Em**
Get your passport and your bikini
C **D**
You need a holiday, come see me
G **Em**
I know you're tired of the same old scenery
C **D**
And I could change all that so easily
Go wild, do your thing, you take a chance
I'll take you to the South of France
Like Cannes
If anyone can I can
We can go shopping in Milan
I just hope you understand
I hope you see it clear
It really doesn't matter how far or near
Cause there's no distance that can stop my persistence
There's just a few days in the year
Plus I've got car
So let's ride that
We ain't gotta fly, we can just drive that
We can have a rave, we can hire that?
Won't tell nobody let them find out

If you ain't doing nothing let's fly away
Drive away, get away
We can go to the club or hide away
We can do what you want to, baby
If you ain't doing nothing let's fly away
Drive away, take a holiday
We can go to the club or hide away
We can do what you want to, baby
