

**Gold Dust**

**DJ Fresh**

Such an simple but amazingly fun song to play, me and my flatmate spent hours completely deconstructing and rebuilding it. We play it down a step but this is how it is on the record. Did like acoustic, rock, funk, punk and more versions, is just these four chords:

**Gm**

Itâ€™s like Gold dust

**Bb**

Ya hear me coming through your spe-ea-kers,

**F**

You see me mashin up your air waves,

**C**

I know you canâ€™t get enough of my sound

Repeat for all verses and choruses ect

Chords may not be in exactly the right place but its pretty simple to figure out. Throw in some breakdowns, halftime sections etc and solo in Gm if your feeling cheeky,

Safe x
