SHINE - DJANGO REINHARDT

   This is a great old time tune, tabbed as performed by Django with the
 Quintette Du Hot Club De France, I m not sure who wrote the tune though.

 CHORD PATTERN @ **C** // **G7** // **C** // **G7** // **E7** // **Am** // **D7** // **G7** //
               C // **G7** // **E7** // **Am** // **F** / **B7#9** / **C** / **A7** / **D7** / **G7** /

The one chord you might not be sure about.   The B7#9/F#
                                                -----------|
The above chord pattern begins the song   -------3---|
with no vocal then simply repeats with vocal   ----2------|
part of the song as below, followed by the   -1---------|
same chord pattern again with no vocal, this   -----------|
basically repeats itself to the improvisation   ----2------|
of guitar and violin til the song climaxes.

       C   **G7**
Just because,   my teeth are pearly,

       C   **G7**
just because,   my hair is curly,

 E7   **Am**
 just because,   I always wear a smile,

D7   **G7**   **C**
  like to dress up,   in the latest styles,   cos,

          G7   **E7**   **Am**
 I m glad I m living,   take my troubles all with a smile,

F   **B7#9/F#**   **C**   **A7**
  just because my colours shady,   different maybe,

D7   **G7**   **C**
  thats why they call me shine.

SIMPLY REPEAT CHORD PATTERN TO GUITAR AND VIOLIN SOLOS TIL END.
