C
I m gonna change your mind

F

I m gonna make you love me

C

I m gonna keep on try in

F

Until I can make you love me

G

There s never been anything

I wanted so bad

You gotta know I m never gonna stop

F

Till I have you baby

It might sound crazy

C

But I m gonna make you love me

C

There s a red rose lyin on your front porch

And I left it last night by the light of the moon

Cause I just can t sleep when I m thinkin

F

G

Bout my arms around you , I just gotta have you

C pause

I m gonna change your mind

F

I m gonna make you love me

C

I m gonna keep on try in

F

Until I can make you love me

G

There s never been anything

I wanted so bad

You gotta know I m never gonna stop

F

Till I have you baby

It might sound crazy

C

But I m gonna make you love me

Solo 8 bars

C

I slipped a love note under the front door

And I wrote it all down straight from my heart

F

Like a song in my head that I just can t stop singin about you

G

And I can t live without you

C

I m gonna change your mind

F

I m gonna make you love me

C

I m gonna keep on try in

F

Until I can make you love me

G

There s never been anything

I wanted so bad

You gotta know I m never gonna stop

F

Till I have you baby

It might sound crazy

C

But I m gonna make you love me

C

I m gonna change your mind

Slowly **F**

I m gonna make you love me.....
