(Verse 2)

Well once upon an idea

I love the girls like you

The sleepless nights and blown out fights

They were funny too

Eventually the charm

That always would wear off

The price I paid always outweighed

Any other costs

(Pre-cho)

Oh but babe I always kinda liked the way you talk
How you give away the gold like it was any other rock

(Chorus)

(Bridge)

Bm

You know shes just a little girl

D

But shes not controlling me

Bm

The harder that you swim against it

D

E

The further you end up out at sea

(Chorus)

A E Bm D

No I can never get enough of these things that are killing me. Hey!

(Outro)
