Not What I Meant
Dodie Clark

```
G
Let s find out just how far i ll go
G                             Em
To look like someone you should know
        Am7
Maybe i d sound a little better
C
If my features were more sweet

G
Your mind s already been made up
G                    Em
You saw my number and my number wasn t good enough
    Am7
I ll write a little better
C
If i m willing to compete

G               G7
I ll do it if i have to
Cmaj7           C
Hoping for an inbetween
G                       G7
Not what i meant when i said that i
Cmaj7         C   G
I wanted to be seen

G
How am i meant to stay on track
    G                           Em
When each hand i shake will pull me back
        Am7
Oh i ll work a little harder
    C                   G
But walk a little less

G
And in the end will i feel proud
G                         Em
That i grit my teeth, and followed the damn crowd
            Am7
Will i have grown a little empire
    C
Or made a fucking mess

G               G7
I ll do it if i have to
```

```
Cmaj7                      C
Hoping for an inbetween
G                              G7
Not what i meant when i said that i
Cmaj7            C     G
I wanted to be seen

G                      G7
I ll do it if i have to
                   Em
(i ll keep it to myself)
Cmaj7                  C
Hoping for an inbetween
   G7                    C
(i must have seen that somewhere)
G                              G7
Not what i meant when i said that i
C                      G
I wanted to be seen
```
