Cant Leave You Doe Paoro

I don t claim that these are accurate or complete, but they re a start. I m sure that once she gets bigger, better musicians will post more accurate chords. good luck figuring the rest out! notes for intro (not chords): C in bass & violin G down to E B in bass & violin G down to E F, A, B, C in bass & violin E up to G, down to F, down to E, up to F, up to C verse1: [C in bass & violin plucking E up to C] reason is kept at bay. [B in bass & violin plucking D up to B] ill believe anything you say. hope keeps pressing on. the problem is my memory. (violins E 3x) i recall loves a reverie. when a siren s song instrumental: notes, not chords: F down to E, down to D, down to C then repeat and harmonize with F down to C, up to Ab, up to A [then repeat that for the next three lines of lyrics] and despite all the pain i can t leave you yet i m all twisted up in your viciousness [chords: C#, G#m, F#, F#m x3] won t you set me free-ee-eee? have mercy on mee-eee-eee? i ve lost all agency-yy-yyy-yy. [Bbm-Fm] see i m addicted to you need you like air i m sick of you stronger in turn for this chorus, chords change for the first three lines: [C#, G#, Fm, F#] and despite all the pain i can t leave you yet all twisted up in your viciousness [C#, G#m, F#, F#m] won t you set me free-ee-eee? have mercy on mee-eee-ee? i ve lost all agency-yy-yyy-yy.

[Bbm - Fm x3] i ve already waited on you way too long. i ve already waited on you way too long. i ve already waited on you way too long.

i-i need you like air.
i m sick of you.
i m sick of you.
ain t got nothing i m sick of you
