[verse 2]

I can't explain this threshold for pain
I have to believe it came from a love
A love misguided it's true cause it was guided at you
I had no idea what you were capable of

I'll walk away I don't have to explain
You know good and well how you treated me
So move along and call off the dogs
Go ahead and find your next prince

[Chorus]

Cause it stops tonight though these wounds have yet to heal
To call out into the dark
And get no reply that's something you should feel

I have moved out, packed up my shit
If you find anything I left behind well, you can have it
Let it clutter up your life, the way you cluttered up mine

I hope it clutters up your life the way you cluttered up mine
