**Don McCloskey**

You have to figure out the timing for the verses. Just listen to the song and play along! Its all powerchords so easy to handle but kind of fast.  
Cheers!

Well I been up since dawn  
have someone else s T-shirt on  
wonderin if these thoughts I think  
will never stop to go on and on

**C Bb Ab G F Ab G**

I drink til I forget  
say things that I regret  
until theres nothing left  
of the morning light and a cigarette

**Ab**

cause

Chorus:

**Bb C Ab**  
It all reminds me of a song I used to know  
**Bb C Ab**  
When you would put the speakers in the window  
**Bb C Ab**  
and we would sit out on the firescape and watch  
the sunrise over the rooftops

**C Bb Ab G F Ab G**

well, that was years ago, many painful tears ago  
I almost lost it, thinking bout you many beers ago  
But Im back on my feet, staggering and can t be beat  
screaming out with swollen eyes and smashing bottles on the street below

Chorus:

**Bb C Ab**  
It all reminds me of a song I used to know  
**Bb C Ab**  
When you would put the speakers in the window

**Bb**

**C**

**Ab**

and we would sit out on the firescape and watch

the sunrise over the rooftops

...woooo hooo hooo hooo 2x

interlude

**C Bb Ab G F Ab G**

well theres no end in sight, at least not for me tonight

my loneliness gets stuck and when I see it in the morninglight

so I stick around to be destroyed, lovesick and paranoid

one step closer to the edge and one day further from the face I can t avoid

Chorus:

**Bb**

**C**

**Ab**

It all reminds me of a song I used to know

**Bb**

**C**

**Ab**

When you would put the speakers in the window

**Bb**

**C**

**Ab**

and we would sit out on the firescape and watch

the sunrise over the rooftops
