I remember those times when they said, I couldn t make it  
**A** **D**  
That I couldn t just do what they wanted, n fake it  
**A** **D**  
They said they d be shocked if I could find, another place to go  
**A** **D**  
And then they said if I left, I d just be left all alone  
  
And then a friend said

**F** **E** **A**  
Don t stop doing what you believe in  
**F** **E** **A**  
Don t let them put you on a shelf

**A** **D**  
You ve got to, move by yourself, move by yourself tonight  
**A** **D**  
You ve got to, move by yourself, move by yourself tonight

Sometimes they can t forget, forget just what you ve got  
So don t ever be, somebody that you re not  
When there s a choice you ve got to make, do what you feel, don t hesitate  
I will never forget what a friend said, his words keep ringing in my head  
He said

Don t stop doing what you believe in  
Don t let them put you on a shelf

You ve got to move by yourself, move by yourself tonight  
You ve got to move by yourself, move by yourself tonight

you ve got to move by yourself, move by yourself tonight  
You ve got to move by yourself, move by yourself tonight  
Oh move on, move on baby

(Solo)

Move by yourself, move by yourself tonight  
You ve got to move by yourself, move by yourself tonight  
You ve got to move by yourself, move by yourself tonight  
You ve got to move by yourself, move by yourself tonight
