

Move By Yourself

I remember those times when they said, I couldn't make it
A **D**
That I couldn't just do what they wanted, n fake it
A **D**
They said they'd be shocked if I could find, another place to go
A **D**
And then they said if I left, I'd just be left all alone

And then a friend said

F **E** **A**
Don't stop doing what you believe in
F **E** **A**
Don't let them put you on a shelf

A **D**
You've got to, move by yourself, move by yourself tonight
A **D**
You've got to, move by yourself, move by yourself tonight

Sometimes they can't forget, forget just what you've got
So don't ever be, somebody that you're not
When there's a choice you've got to make, do what you feel, don't hesitate
I will never forget what a friend said, his words keep ringing in my head
He said

Don't stop doing what you believe in
Don't let them put you on a shelf

You've got to move by yourself, move by yourself tonight
You've got to move by yourself, move by yourself tonight

you've got to move by yourself, move by yourself tonight
You've got to move by yourself, move by yourself tonight
Oh move on, move on baby

(Solo)

Move by yourself, move by yourself tonight
You've got to move by yourself, move by yourself tonight
You've got to move by yourself, move by yourself tonight
You've got to move by yourself, move by yourself tonight
