For All We Know
Donny Hathaway

```
     A        F#     Bm
For all we know
                       E      A
We may never meet again
         Em
Before you go
         Bm              D    E
Make this moment sweet again

C#m                F#m
We won t say goodnight
Bm        D          C#m
Until the last minute
F#m              Bm
I ll hold out my hand
         C#m            D    E
And my heart will be in it

     A        F#     Bm
For all we know
                       E    A
This may only be a dream
               Em
We come and we go
         Bm              D    E
Like the ripples of a stream

       A              G#
So love me, love me tonight
C#                      F#
tomorrow was made for some
Bm
tomorrow may never come

for all we know
```
