

Stop The Clocks

Donots

SONG: Stop the Clocks

ARTIST: The Donots

TABBED BY: soundczechxD@gmail.com

TUNING: standard (E A D G B E)

This is how I play it when I cover it (if you want an example, go to [youtube.com/soundczechxD](https://www.youtube.com/soundczechxD), I have a cover on there). It may not be in the same key as the original, but it sounds right to me. Also, I usually capo the second just to put it in my range, which is the way it is in the video.

Verse

Em

Lies

G

Demand another lie

D

No matter how i try

Am

Wish i could disappear

I know myself

I know myself well enough

Em

Down

G

The only way is down

D

My face down on the ground

Am

What am i doing here?

I know myself

I know myself well enough

Em

G

And if i could stop the clocks

Bm

If i could make this moment mine

C

I d make the most of a bad time

Em

G

I wish i could stop the clocks

Bm

And wash away those lies

C

It's all that i could wish for tonight

Verse (same chords)

Down

The only way is down

My face down on the ground

What am i doing here?

I know myself

I know myself well enough

And now my angels need angels

To help me get out of this hell

I know myself well enough

To know that i don t know myself

Other two choruses - same chords

Enjoy! :D
