```

Go back into the first on twice, and then the second one twice. The second one goes with third one, so do that: on the second time going into the third on, don't do the high e just go like this:

e-----0-----2-----2--|
-----3-----3-----3--|
-----0-----0-----0--|
-----2-----2--|
-----2--|
E-----|

you can add the bass string

That's it, have fun and listen to the song. It was the first song I ever learned, and came easily.
