

Winter Hill
Doves

I ve not had much luck finding tabs for the brilliant new Doves album, so have had a go at working out some chords for myself. Pretty basic, but sounds OK to me.

F

Where ever you go

G

you will be with me

F C

and when you do talk

G

you will be talking to me

D C

but just save your words

G

as we walk on by

D C

with the sky full of birds

G

and the dusk approaching

Em D

Em D
climb the long grassy track

Am C D

to the top of winter hill

Em D

climb the real rocky track to the top

A

i ll see you back

Am G C G

i ll see you back on winter hill

wherever you go

you will return safe
and when you will walk
you ll be walking with me
but if comes the day
you meet someone new
you will be with them
but I ll be thinking of you

climb the long grassy track
to the top of winter hill
stay with me see so far at the top
i ll see you back
i ll see you back on winter hill

well she travels far
so we stayed apart
but she crossed her heart on winter hill
