(same chords progression)

And we re sitting in the rain
And we re feeling like the weather.
You could say that we re alone
But we re lonely together

[Chorus]

(same as verse)

We re all in it together now
As we all fall apart
And we re swapping little pieces
Of our broken little hearts.

[Verse 2]

(same as verse 1)

Jackie is jumping in the quicksand
But it isn t what you think.
She s safe because she knows
The more you fight, the more you sink
And John is following the black cloud
To keep him from the sun.
So he bends over now
Something has finally begun.

[Chorus]

(same as verse)

And we re all in it together now
As we all fall apart
And we re swapping little pieces
Of our broken little hearts.

[Verse 3]

(same as verse 1)

And we ve been hurting so long
That our pleasure is our pain.
Are we madly in love
Or are we madly insane?
When yesterday s love defines you
And today that love is gone
Tomorrow keeps you guessing
The roller coaster is rolling on.

[Chorus]

(same as verse)

And we re all in it together now
As we all fall apart
And we re swapping little pieces
Of our broken little hearts.
And we re all in it together now
As we all fall apart
And we re swapping little pieces
Of our broken little hearts.
