in some back yard

looking high looking low

A

G

D

I want to know where the shadow people go

[Verse]

I stole the bike from the 2nd mile
saw a band play in the basement
I crossed the path of a friend of mine
didn t know what that look upon her face meant
somethings gone in her eyes
somethings gone wrong

you could be a woman
or you could be a man
wear the glove on the other hand

you could be twisted
or you could be insane
pushing the envelope against the grain
or just playing along x2

and I got something on my mind
and I got voices on the other line
saying hi saying low

[Chorus]
where did all the shadow people go x2

I want to know where the shadow people go
where did all the shadow people go, where did all the shadow people go x6
where the shadow people go...
