Tuning: Standard

Opens with a random picking out of an open A chord

A

Are you moving much too fast?

C#m

And the good times that just don t last

D

If you re always on the go

E

Make an angel in the snow

A

And freeze

A

Do you feel like you re stuck in time?

C#m

Forever waiting on that line

D

If nothing ever moves

E

Put that needle to the groove

A

And sing

A

Is it a dream keeping you awake?

C#m

Is it the stillness that makes you shake?

D

If you need to know for sure

E

What s on the ocean s floor

A

You ll sink

A
Do you like things the way they seem?

C#m
Or are you looking behind the scenes?

D
Well, if you ve gotta know

E
What it takes to make it sow

A
Just believe

Are there dark parts to your mind?
Hidden secrets left behind?
Where no one ever goes
But everybody knows
It s all right

A
Do you get dizzy on the ground?

C#m
It must be something going round

D
What blows us here today

E
It ll blow us all away,

A
The breeze

C#m
Ahh, will blow us all away

A
The breeze

C#m
Ahh, will blow us all away

A
The breeze
