

The Way The Lazy Do
Dr. Dog

SONG: The Way the Lazy Do
BAND: Dr. Dog
ALBUM: We All Belong (Track 9)

Here is an alternative version of this song s chords since I ve only seen one
other tab
it on the Net. :)
It sounds most like the actual song if you tune your strings down a half-step.

Chords:

E [022100]
A [x02220] or [577655] sounds good, too.
C#m [x46654]
E7 [020100]
B* [799877]

*You can do a little walk-up move with the bass note on this B chord if you want
it to

most like the
actual song, which goes:

[9x9800] --> [x69800] --> [x79800]

(you may also want to try muting the high E string during this part instead)

E

Lying on your back

A

In the night so black

E

Dreaming of sweet love

A

Just beneath above

E, A

E

There s a light on in the house

A

See the bug see the mouse

E

Hear em fight, hear em shout

A

Hit the lights and go out

C#m

A

It s just that time of the year

E

E7

that brings them here

A **B*** * * * (see above)

Yesterday the day got colder

Passed away got one day older

B **A** **E**

Now it seems that everything is new

(Then back to E, A etc.)

Those are all the patterns in the song. The rest is repetition. Enjoy. :)
