INTRO: **G#**

**G#**

Broken cars, old guitars  
 Waiting here for the time to pass,  
**Fm** **C#**  
 Time takes it toll - it took it fast

**G#**

Secret meetings at the river s bend  
**Fm**  
 Simple days when I called you friend  
**C#** **Eb**  
 Came a time, we went separate ways

**G#**

Those were our young years  
 Our wings were drying in the sun  
**Fm** **Eb** **C#**  
 Now the winter, at our window feels so cold

**G#**

Where are our young years

**G#**

Everything seemed better days  
 Boats in which we sailed away  
**Fm** **C#**  
 Lie all rusted on rocky ground

**G#**

Here we sit with a schooner of ale

**Fm**

Dreaming of a wind that ll make us sail

**Eb**

Taking us far away

**C#**

Do you remember how it was?

**Bbm**

We had the moon and tide behind us

**C#**

**Eb**

We used to take it up take it up!

**G#**

Those were our young years

Our wings were drying in the sun

**Fm**

**Eb**

**C#**

Now the winter, at our window feels so cold

**G#**

Back in our young years

Sometimes the good did not die young

**Fm**

**Eb**

**C#**

Now we live on memories alone

**G#**

Of our young years

BRIDGE: **G#** x4

**Bbm**

If we had the moon and tide behind us

**G#**

We could still sail so far away

**C#**

And time would pass

And things would change

**G#**

**Eb**

And memories would fade away

**G#**

Those were our young years

Our wings were drying in the sun

**Fm**

**Eb**

**C#**

Now the winter, at our window feels so cold

**G#**

Back in our young years

Sometimes the good did not die young

**Fm**                    **Eb**                    **C#**

Now we live on memories alone

**G#**

Those were our young years

You know we ll live it all again

**Fm**                    **Eb**                    **C#**

We can turn the tide and sail away

**G#** (till end)

Back to our young years

Those were our young years
