INTRO: **F#**

**F#**

Broken cars, old guitars  
 Waiting here for the time to pass,  
**Ebm** **B**  
 Time takes it toll - it took it fast

**F#**

Secret meetings at the river s bend  
**Ebm**  
 Simple days when I called you friend  
**B** **C#**  
 Came a time, we went separate ways

**F#**

Those were our young years  
 Our wings were drying in the sun  
**Ebm** **C#** **B**  
 Now the winter, at our window feels so cold

**F#**

Where are our young years

**F#**

Everything seemed better days  
 Boats in which we sailed away  
**Ebm** **B**  
 Lie all rusted on rocky ground

**F#**

Here we sit with a schooner of ale

**Ebm**

Dreaming of a wind that ll make us sail

**C#**

Taking us far away

**B**

Do you remember how it was?

**G#m**

We had the moon and tide behind us

**B**

**C#**

We used to take it up take it up!

**F#**

Those were our young years

Our wings were drying in the sun

**Ebm**

**C#**

**B**

Now the winter, at our window feels so cold

**F#**

Back in our young years

Sometimes the good did not die young

**Ebm**

**C#**

**B**

Now we live on memories alone

**F#**

Of our young years

BRIDGE: **F#** x4

**B** x4

**C#** x8

**B** x8

**C#** x8

**Ebm** x8

**B** x8

**G#m**

If we had the moon and tide behind us

**F#**

We could still sail so far away

**B**

And time would pass

And things would change

**F#**

**C#**

And memories would fade away

**F#**

Those were our young years

Our wings were drying in the sun

**Ebm**

**C#**

**B**

Now the winter, at our window feels so cold

**F#**

Back in our young years

Sometimes the good did not die young

**Ebm**                    **C#**                    **B**

Now we live on memories alone

**F#**

Those were our young years

You know we ll live it all again

**Ebm**                    **C#**                    **B**

We can turn the tide and sail away

**F#** (till end)

Back to our young years

Those were our young years
