```
Deepest fears will burn inside your mind
Вb
For the souls lost in endless time
Searching never ending for the chaos ascending
You forgot the spirits all the times pretending
Passing shades of darkness in the world around you
Finally insanity in death has found you.
F
On the edge of life trying to pull you under
Deep inside the storm there s a raging thunder
Вb
Sacrifice your innocence for prosecution
As we now prepare for the revolution
G
Slaying all the evil down below
Onwards we ride now to what we know
Strong enough to stay and carry on forever
Brace your soul to fight whenever
C
In a time of fire we re searching blind inside the mind
Run away to hell s damnation one day we will find
Suddenly the skies are falling too late for us all
                              Bb
Crashing down on all creation as the towers fall
( A G F )
 Bb
Stand Before the worlds of freedom, rise above them all
Ride towards the battle raging, victory behold
Blackened Steel of death tonight
F
Our legions now descend
Far Beyond the gates of glory
 C
