E
Your heart is hard to carry after dark

G#M
You re to blame for what we could have been

F#
Cause look at what we are

E
Your friends are scared to tell you went too far

G#m F#
Funny that it s always been all about you from the start

E C#m
I met someone new last night and we kicked it

G#m
And I m going back there tonight

F# E C#m
And you know what s on my mind, this time

G#m
Going back there tonight

A#
And you know what s on my mind

E
If you had my love

And I gave you all my trust

G#m F#
Would you comfort me?

E

And if somehow you knew

That your love would be untrue

G#m

Would you lie to me?

C#m

If you had my love

And I gave you all my trust

E

F#

Would you comfort me?

C#m

And if somehow you knew

That your love would be untrue

E

F#

Would you lie to me?

E

Out of body

G#m

That s just how I feel when I m around you, shawty

F#

Last night we didn t say it

E

But girl, we both thought it

G#m

Why second guess? I should have stayed

F#

E

You say the word, I m on the way

C#m

G#m

F#

E

F#

G#m

Why second guess? I should have stayed

A#

Cause you know what s on my mind tonight

E
If you had my love

And I gave you all my trust

G#m F#
Would you comfort me?

E
And if somehow you knew

That your love would be untrue

G#m
Would you lie to me?

C#m
If you had my love

And I gave you all my trust

E F#
Would you comfort me?

C#m
And if somehow you knew

That your love would be untrue

Would you lie to me?
