Em **A** **Am**
In the heart of your most solemn barren night
Em **A Am**
When your soul s turned inside out
Em **A** **Am**
Have you questioned all the madness you invite?
Em **A Am**
What your life is all about
D **C**
Some of us choose to live gracefully
D **C**
Some can get caught in the maze
Bm
And lose their way home
A Am
This is the life we belong to
F#m Am Em
Our gift divine

(The entire rest of the song goes the same way as above.)

Have you ever wished that you were someone else?
Traded places in your mind
It s only a waste of your time

Some of us choose to live gracefully
Some can get caught in the maze
And lose their way home
This is the life we belong to
Our gift divine

Feed the illusion you dream about
Cast out the monsters inside
Life begins with an empty slate
Fragile left in the hands of fate
Driven by love and crushed by hate
Until the day the gift is gone
And shadows remain

Some of us choose to live gracefully
Some can get caught in the maze
And lose their way home
Memories will fade
Time races on
What will they say after you re gone?

This is the life we belong to
Our gift divine
