G
Laughing up a storm, crying down the lightning
It s tempting to leave home, it s tempting to drive away
                         C G
Where s the reconciliation of the things that came to pass
All those humdrum conversations, they ll never last
Wash me over the river side, long gone away
Take what s yours and take what s mine, long gone away
Wash me dirty, wash me clean, long gone away
What I know, and what I ve seen, long gone away
Long gone away
                                 CG
Send a letter, make a phone call
                                 CG
Check the clock, it s four A.M.
Nothing s easy, nothing s small
You re lonesome again
                                      CG
So take your time and take your money
Take the leper and take the lame
```
