Into The Fire
Drew Seeley

Intro : **Dm** /**Am** / **G**

Verse :
Dm   **Am**   **G**
You€™ve seen her type before, she knows what she can do

Dm   **Am**   **G**
There€™s a heat you can€™t ignore but it never melts her cool

Dm   **C**   **G**   **E**
And I know it for a fact €" She€™s a pyromaniac
                              F   **G**
She lights me up to watch me burn, and still I come back

Dm   **Am**   **G**
Now we€™re back down to the wire, know I should not play with fire
Dm   **C**   **G**
But everything she does fuels my desire
Dm   **Am**   **G**   **E**
And I€™m trying to get away, instead of flying into the flame
                                    F   **E**
She laughs cause she knows it won€™t last too long when I say

Chorus :
Am   **E**   **F**   **C**
This time I€™ll finally forget you
              Am   **E**   **F**   **G**
But I know one smile will incinerate my will to even try
Am   **E**   **F**   **C**
Sometimes I wish I never met you
Am   **E**   **F**   **E**
Still I jump right back into the fire, into the fire

Verse :
Yeah so first time shame on her, but second time shame on me
But I know I got it bad, cause I lost track after three
It€™s the thing she€™s giving off, it€™s the switch I can€™t turn off
So smoking hot I start to choke and cough when I say

Chorus :
This time I€™ll finally forget you
But I know one smile will incinerate my will to even try
Sometimes I wish I never met you
Still I jump right back into the fire, into the fire

Bridge :
            F   **C**   **G**

```
Tell me why, why every time I'm getting on track
          F       C        G                  Am
You catch me again, then you throw me back?
                   C        G        E
And why does it feel so good to let you win?
E
Will you ever let me in?

Same Chorus & end with an Am
```
