New contracts and Carl Perkins Cadillac

I got friends in Nashville, or at least the folks I know
Nashville s where you go to see if what he said is so.
Carl drove his brand new Cadillac from Nashville anywhere downtown.
This town they promised him a Grammy, he turned his Cadillac around.

Cause Mr. Phillips never blew enough hot air to need a little gold plated
paperweight
he promised him a Cadillac, they put the wind in Carl s face.
He did just what he said he s gonna do and the money came in sacks.
New contracts and Carl Perkins Cadillac

Damn it Elvis, I swear son, I think it s time you came around.
Makin money you can t spend ain t what bein dead s about
You gave me all but one good reason not to do all of the things you did.
Like Cadillac (?) glass, if you were me, you d call it quits.

Mr. Phillips was the only man that Jerry Lee still would call sir
I just wish Mr. Phillips did all of y all, bout as as good as you deserved

He did just what he said he s gonna do
and the money came in sacks.
