

**Space City**  
**Drive-By Truckers**

Drive-By Truckers  
Song: Space City  
Album: A Blessing and a Curse

Tuning Down One Step (key of C)

Intro: **D, G, A, G, D**

**D** **G**  
If I could have one wish right now  
**A** **G** **D**  
I'd be about as half as tough as I pretend I am  
**D** **G**  
Then I wouldn't care how empty this old house feels  
**A** **G** **D**  
I could take her things and take them far away from here

I could make sure no dirt ever got on her name  
Cause looking at that stone wouldn't bring me so much pain  
I could go into town wearing my finest clothes  
I could turn these tears into blood and make it run ice cold

**G** **A** **Bm** **A**  
Space City's one hour up the road from me  
**G** **A** **Bm**  
**G**  
One hour away from as close to the moon as anybody down here is ever gonna be  
**A** **Bm** **A**  
**G**  
And somewhere beyond that big white light is where my heart is gone  
**A** **D**  
And somewhere she's wondering what's taking me so long

My hands are as good to me as they've ever been  
And I ain't ashamed of anything my hands ever did  
But sometimes the words I used were as hard as my fist  
She had the strength of a man and the heart of a child I guess
