Drowning at Dawn

Album: Simple EP

Band: Drowning at Dawn

INTRO: **Em**, **C**, **Em**, **C**

Em

A quick stare and a hit to the face

Em

A worn out smile and a warm embrace

These things just make everything go slow

Em

A sudden turn of my brown eyes

Em

And I'm blinded by your light

C (Hold)

We should just stick with what we know

N/C

(And what I know is crying)

Em

Tears fall

Em **C**

Don't wait for the countdown

G

Just try to keep your ground

D

Cause you've got a hold of my happiness

Em

Don't stop

C

Just keep moving out now

G

And I hope you're so proud

D

Cause you're the only thing that I would've missed

Em **C** (Break)

But now you'll fall...

Em **C**

...with my tears

Em

A signal and a secret code

Em

And you hope that nobody knows

C

You re taking too many steps here

Em

I confront you but you throw me a bone

Em

It makes me think I was always alone

My feelings you won t consider
