Weights And Measures Dry The River Hello there, sorry if there s a couple of mistakes in the lyrics, but the chords are all good. The chords with a dash (F G ) are the places I play it as a bar chord because I think it sounds better, but it doesn t really matter and its up to you. Enjoy. Capo 1 Standard Tuning [Verse 1] C G You ve made your decision now get up and leave F G C The familiar sting of the woodcutters swing to the tree C G I'll fall in the forest to elbows and knees. F G С And it won t make a sound since there s no one around here to see [Pre-Chorus] F C I was prepared to love you  $\mathbf{F}$ C G And never expect anything of you [Verse 2] C G If a spirit has left you baby don t lie to yourself F G С Put them old records on and admit that it s gone somewhere else G Just because we re beasts of blame by nature doesn t mean that you should carry it again F G С It s a question of needs, and not rosary beads, in the end [Chorus]  $\mathbf{F}$ C

I was prepared to love you
