Do you remember
How lovers ripe on summer s heathen night
Would never seem to end?

Come stirring with that finger of desire (desire)
To feel it once again?

Chorus (plays the ssme way as the 1st):
You worry bout your friends
What if they find what s going on
But a little time could change your mind
I ll be here
And you can call me
(if you want to stay with me) at your liberty
You can hold me
(if you want to be with me) at your liberty

Don t make it every night
Don t wanna be the love of your life
So if you are inclined
To spend a little time

And you can hold me
(if you want to stay with me) at your liberty
And you can call me
(if you want to stay with me) at your liberty
And you can touch me girl
(if you want to stay with me) at your liberty
...touch me girl
(at your liberty)
help me out
(at your liberty)
...sort me out
(at your liberty)
...or you can set me free

Outro:
(if you wanna stay with me
if you wanna be with me
if you wanna stay with me
if you wanna write to me)
...at your liberty...
