

**My Antarctica**  
**Duran Duran**

**Gm**

Once I thought that I was in control

**C**

But that was just another trick of fate

**Gm**

Playing with my life

**Gm**

There have been some times

I was so tied up

And I said to myself

**C**

Gotta break it all

**Gm**

But didn't really try

**Eb**

**F**

**Gm**

Two hearts beating in this place you've made

**Eb**

**F**

**Gm**

You know nothing changes my Antarctica

**Gm**

You can make your rhymes

And paint your rules

In black and white

**C**

For me to memorize

**Gm**

But never understand

**Gm**

And there will be time

For a thousand vows

Oh a thousand promises

**C**

**Gm**

We forgot To be realized

**Eb**

**F**

**Gm**

Two hearts beating in this place you've made

**Eb**

**F**

**Gm**

You know nothing changes my Antarctica

**Eb**

**F**

One life pumping

**Gm**

We make love to make our heat

**Eb**

**F**

**Gm**

And we throb in my Antarctica

**Gm**

We ll keep the rhythm going

**C**

And we ll remember

**Gm**

We ll keep the laughter flowing

**C**

And we ll remember

**Gm**

We let the music jangle

**C**

**Gm**

And we ll remember

Two hearts beating in this place you ve made

You know nothing changes my Antarctica

One life pumping

We make love to make our heat

And we throb in my Antarctica

Caught and sheltered this is what you made

You know I will stay here

In Antarctica

And you

Will stay here

With me
