

**In The Winter**  
**Dusty Springfield**

In The Winter

**D#m**                    **G#m**  
The days are okay I watch the T.V. in the afternoon  
**D#m**  
If I get lonely the sound of other voices  
**G#m**                    **F#**                    **Bb7**  
Other rooms are near to me I m not afraid

**D#m**                    **G#m**  
The operator she tells the time, it s good for a laugh  
**D#m**  
And there s always radio and for a dime  
                  **G#m**                    **F#**                    **Bb7**  
I can talk to God, dial-a-prayer, are you there?  
**D#m**                    **Bb7**  
Do you care? Are you there?

Chorus:

**D#**    **G#**                    **Gm**  
And in the winter extra blankets for the cold  
**Fm**    **D#**                    **D#m**  
Fix the heater, getting old, I am wiser now you know  
                  **Bb7**  
And still as big a fool concerning you

I met your friend, she s very nice, what can I say?  
It was an accident. I never dreamed we d meet again this way  
You re looking well I m not afraid, yeah

You have a lovely home, just like a picture. No, I live alone  
I found it easier. You must remember how  
I never liked the party life, Up all night  
Lovely wife, you have a lovely wife

Chorus
