Intro D
                   (Walk up to G on E string)
Where did I go wro----ng,
You know I never had a clue.
I must ve just been born no good,
Cause bad s the best that I can do.
                         (Walk up to G on E string)
Was it just my fate in li----fe,
To end up here this way?
Lost and all alone,
One more black lamb that s gone astray.
Lonesome roads, the only kind I ever travel.
Empty rooms, the only place I ever stay.
I m just a face out in the crowd that looks like trouble.
Poor old worthless me s the only friend I ever made.
