

Are You Still Having Fun
Eagle-Eye Cherry

Capo on 3rd fret...

Em Am C C

-----Em
You are on your own
-----Am-----C
You do as you please
-----Em
Having so much fun
-----Am-----C-----
Gone and lost your reason
-----Em-Am-C-C
After all is said and done
-----Em-Am-C
Are you still having fun?

How were you to know when you ve gone astray
happiness would go like a lost emotion
You have always gone your way
Are you happy today

-----Em-----Am---C-----
Well you know when you ve been defeated
-----Em-----Am-----C--
You don t care and you thank no one
-----Em-----Am-----C-----
Feeling low you will always need it
-----Em-Am-C
Are you having fun

Am----C-----D-----
Ooooooooo You don t know what it is you ve done
Am----C-----D-----
Ooooooooo Just to show that you re having fun

This was your mistake with the master plan
With all the drugs you take, you can hardly stand
After all is said and done
But Are you still having fun

I can set you straight if you let me stay
I hope I m not too late
No you won t regret it
I can show you the way
And make you happy today

Yes you know when you ve been defeated
You don t care and you thank no one
Feeling low you will always need it
Well you know when you re being cheated

This is a fine song to sing with acoustics... enjoy!
