tune your guitar to GGDGBD. as soon as you strum the guitar you ll pretty much hear the tune. this isn t exactly right, but you should be able to get it from this.

```

That s pretty much it. It s not 100% accurate, but if you listen to the record, you ll get the timing. the songs should be in the GGDGBD tuning (the 2 G s give Jesse that great rhythm sound). You ll know what I mean after you ve tuned up.
