

Dethdealer
Eagles Of Death Metal

Ok, Super rare song by EODM, not 100% about this, but here goes nothing. If anyone has song it would MUCH appreciated if you could email it to me, because this is a tab I had to from memory. I may not have the number of times/chord pattern COMPLETELY right, but if one of the lucky few who own this song, all you have to do is listen and I m sure figure it out just fine.

So there ya go, that may look a bit weird, but like I said, all ya have to do is listen

you should be able to get it. There is a solo as well (I think) but I don t remember it.

if this turns out to be wrong, it s the best I can do by memory, and it sounds right to

but if you play it, and it sounds wrong then that means you have a copy, therefore if

tab is wrong you could send me that copy so I can fix any mistakes I ve made.
