When I feel like I get too close I put you right down
I never really leave, I just slip away
Well, it s not my purpose to break your spirit
I m not really interested in what s in your heart
I don t want you to fall in love now, so please don t start

I only want you

I know that it s terribly cruel but then I like it
Because you try to love me you just can t stay
And I m not gonna lie just to spare your feelings
Cause watching you suffer feels much better to me
I m about to lay destruction on you
I m the lover man that you want me to be
I said well

I only want you

When you see, if you get too close, I ll put you right down
I never really leave, I just slip away
Well, it s not my purpose to break your spirit
I m not really interested in what s in your heart
But now I have to lay destruction on you
I m the lover man that you want me to be
I said well

I only want you
