

**I Love To Watch A Woman Dance**  
**Eagles**

Verse 1:     **D**                             **G**             **D/F#**  
I love to watch a woman dance  
          **A**             **Asus4**         **G**                     **D/F#**  
She bows her head and lifts her hands  
          **A**             **Asus4**         **G**                     **D/F#**  
Her hips begin to circle slowly  
          **A**             **Asus4**             **G**                     **D/F#**  
Her eyes have closed, her face is holy

**Bm**             **F#m/A**         **G**             **Bm**  
She holds the whole world in a trance  
          **A**             **D**             **G**             **D/F#**  
I love to watch a woman dance  
          **A**             **D**             **G**             **D**

Interlude  
**D** **Dsus2**

Verse 2:       **Dsus2**                             **G**             **D/F#**  
She likes the slow songs of love lost  
          **A**             **Asus4**         **G**                     **D/F#**  
They take her a million miles away  
          **A**             **Asus4**             **G**                     **D/F#**  
Cause to dream, sometimes, it s the only way  
          **A**             **Asus4**             **G**                     **D/F#**  
To go places you can t get to any other way

**Bm**             **F#m/A**         **G**             **Bm**  
Our eyes connect, she takes my hand  
          **A**             **D**             **G**             **D/F#**  
I love to watch a woman dance  
          **A**             **D**             **G**             **Dsus2**  
Yeah, I love to watch a woman dance
