While this song was originally performed by Joe Walsh, on his You Can't Argue With A Sick Mind album, this version appeared on their Farewell Tour I CD.

This is my interpretation of the song and is what I hear. Since U-G doesn't always include the correct chord voicings, I have included all of them in this transcription. Please feel free to experiment with your own chord voicings.

The E in the chorus may be skipped if necessary. For the most part, it is a passing chord and happens so fast, less experienced players may find it difficult to play it and keep up. If you find this is the case, simply skip the Es in the chorus and play the other chords. The song will still sound good.
