

F Because I m wilder than her, drives her out of her mind **C**

Bb **F** **C**
I guess she thought she was just one of a kind
F **C**
But she s a summer storm, I m a hurricane
Bb **F** **C**
One just blows through town, one blows the town away
F
And I m wilder than her

Bb **F**
But when she takes my hand and she looks me in the eye
Bb **F** **C**
I see something that I ve never seen in my life
F **C**
She takes the fire and turns it down low
Bb **F** **C**
She takes the night and makes it not so cold
F **C**
She takes the distance and breaks it into miles
Bb **F** **C**
She makes my life a little less wild

F **C**
Because I m wilder than her, drives her out of her mind
Bb **F** **C**
I guess she thought that she was just one of a kind
F **C**
But she s a summer storm, I m a hurricane
Bb **F** **C**
One just blows through town, one blows the town away
F
And I m wilder than her
