

F#	C#
Because I m wilder than her, drives her out of her mind	

B **F#** **C#**
I guess she thought she was just one of a kind
F# **C#**
But she s a summer storm, I m a hurricane
B **F#** **C#**
One just blows through town, one blows the town away
F#
And I m wilder than her

B **F#**
But when she takes my hand and she looks me in the eye
B **F#** **C#**
I see something that I ve never seen in my life
F# **C#**
She takes the fire and turns it down low
B **F#** **C#**
She takes the night and makes it not so cold
F# **C#**
She takes the distance and breaks it into miles
B **F#** **C#**
She makes my life a little less wild

F# **C#**
Because I m wilder than her, drives her out of her mind
B **F#** **C#**
I guess she thought that she was just one of a kind
F# **C#**
But she s a summer storm, I m a hurricane
B **F#** **C#**
One just blows through town, one blows the town away
F#
And I m wilder than her
