In My Time

Intro: **C Csus4 Csus2 Csus2 Csus4 C** (4X)

**C** **F**  
On your wings you ll carry me down

**C** **F**  
Highways to the shore

**C** **F**  
And at your wheel you ll steer me

**C** **F**  
Then steer me no more

**G**  
Me no more

**C** **D**  
All my leaves are turning

**F** **G**  
With the changing of the seasons

**C** **D**  
And all my dreams are burning up

**F** **G**  
And looking for a reason

In my time of living  
I just wanted to be true  
But I just took your giving  
and I stole the truth from you

**C** **E7** **F**  
And in the line of duty

**C** **E7** **F**  
I turned upon my heels

**C** **E7** **F**  
Peeled the skin off beauty

**C** **E7** **F**  
And too much was revealed

**G**  
Much too real

All my pages empty  
Like a book I never read  
And all my words are words I wish  
Wish I could have said

Instumental verse and Verse 1

All my leaves are turning...

All my pages....

Hitching a ride

Down your highway...
