Echo and the Bunnymen - Nothing lasts forever

written by Echo and the Bunnymen
chords transcribed by Lupas

I was quite surprised to find out that no one transcribed the chords of
this beautiful song yet, so i thought it was time to give my first
contribution to the OLGA, even though I m just a beginner in guitar
playing. Corrections and suggestions are obviously more than welcome !

Verse 1 :
```
D
I want it now
F#m
I want it now
        G                                       D
not the promises of what tomorrow brings
                        F#m
I need to live in dreams today
  G                                             D
I m tired of the songs that sorrow sings
```

Bridge :
```
D7                                      G
And I want more than I can get
      A
Just trying to, trying to, trying to forget
```

Verse 2 :
```
D                           F#m
I d walk to you through rings of fire
      G                                 D
and never let you know the way I feel
                                F#m
under skin is where I hide
G                                           D
```

the love that always gets me on my knees

Bridge :
```
              D7                              G
```
and I want more than I can get
```
      A
```
just trying to, trying to, trying to forget

Chorus (X2) :
```
G
```
nothing ever lasts forever
```
                                  D
```
nothing ever lasts forever

```
D
```
I want it now

```
don t tell me that my ship is coming in
```
                                F#m

nothing comes to those who wait
```
          G                                          D
```
time s running out the door you re running in

```
D                                    G
